

PRESS RELEASEBudapest, 30th May, 2006.**Investment units for microbusinesses**

[origo] klikkbank investment services range extended

Budapest, 30th May, 2006. – As of 22nd May, 2006 microbusinesses can purchase investment units on the online bank [origo] klikkbank operated by T-Online Magyarország with financial services provided by Erste Bank Hungary and investment services provided by Erste Bank Befektetési.

The online bank [origo] klikkbank was launched by Erste Bank Hungary and T-Online Magyarország in December, 2005. Since the launch over 1,000 retail and microbusiness accounts have been opened through the [origo] website and interest remains high.

The two partners continuously extend the range of services on offer: clients can open retail and microbusiness bank accounts, student accounts, commit deposits, arrange overdrafts and take out personal loans through [origo] klikkbank.

From 22nd May, 2006 microbusinesses can also purchase investment units online through the investments division [origo] klikkbank Befektetések, from home even, following a one-off personal identification process in a bank branch.

The property funds' fund [origo] klikk Ingatlan Alapok Alapja is a cost and time efficient investment opportunity, which offers low risks and attractive returns. Furthermore the fund is flexible, as clients can buy and sell investment units when they please. The purpose of the fund is to make market investments available to all. Clients do not need an extensive knowledge of the property market, or enormous capital or time expenditure.

The financial market funds' fund [origo] klikk Pénzpiaci Alapok Alapja is a favourable, safe form of investment for monies available for an indeterminate period, as its yields exceed interest paid by banks in the short term, without the requirement of committing the money in the long-term, giving clients immediate access to their monies. The [origo] klikk Pénzpiaci Alapok Alapja invests the money raised in financial market fund units. These financial market funds predominantly invest in short-term government bonds, bank deposits and securities issued or guaranteed by the central bank in order to achieve a stable, balanced growth.
